SPEAKERS AND PANELISTS PROFILES

Presentation Speaker 1

Session 1 : Panelist No 1

Dr Wong Wai Khuen

Senior Officer Malaysian Administrative and Diplomatic (PTD) Service Corps

Dr Wong Wai Khuen is a senior officer in the Malaysian Administrative and Diplomatic (PTD) Service Corps, a premier institution responsible for shaping Malaysia's national policies and managing its administrative and diplomatic affairs. With two decades of service, he has developed deep expertise in navigating complex societal challenges, including healthcare, climate change, human rights, labour, and the Sustainable Development Goals (SDGs).

At present, Dr Wong serves in the Industry ESG Division of the Ministry of Investment, Trade and Industry (MITI), where he spearheads initiatives to embed ESG practices across Malaysia's manufacturing sector. His portfolio covers industrial decarbonisation initiatives, carbon pricing mechanisms, greenhouse gas (GHG) inventory enhancement, and response measure to global climate and trade policies - critical areas that underpin Malaysia's transition towards a net-zero future.

Beyond government service, Dr Wong collaborates actively with leading academics and international think tanks. He has co-authored ESG-related research and worked with the Value Research Center in Kyoto to develop an innovative corporate ESG measurement methodology. This work complements the Value Model—a framework formalised by Doshisha University to help organisations measure and manage stakeholder value through structured, objective ESG and sustainability indicators.

Session 1 : Panelist No 2

YBrs. Dr Syed Kamal Muzaffa Syed Hassan Sagaff

Director of Sustainability Division at Malaysian Investment Development Authority (MIDA)

YBrs. Dr Syed Kamal Muzaffa Syed Hassan Sagaff is the Director of the Sustainability Division at the Malaysian Investment Development Authority (MIDA), where he leads the development and implementation of sustainability strategies to strengthen Malaysia's industrial competitiveness through Environmental, Social and Governance (ESG) principles and sustainable investment practices. He oversees initiatives that support businesses in integrating sustainability into their operations while aligning with national priorities, the United Nations Sustainable Development Goals (SDGs), and Malaysia's Net Zero 2050 aspiration.

With extensive experience in investment development, technology, and industrial policy, **YBrs.** Dr Syed Kamal has held several leadership roles within MIDA, including Director of the Advanced Technology and Research & Development Division and senior positions in Domestic Investment and Supply Chain Coordination, where he played a key role in strengthening Malaysia's innovation ecosystem and local supply chain development.

In his current role, he actively engages with industry stakeholders, government agencies, and international organisations to accelerate ESG adoption, decarbonisation, and sustainable business transformation. He is a frequent speaker at national and regional forums, sharing insights on sustainable investment, green industrial development, carbon reduction strategies, and policies that enable Malaysian industries—particularly SMEs—to remain globally competitive in the transition towards a low-carbon economy.

Presentation Speaker 3

Mohamad Hafiz Hossen

Executive in the Incentives Department at the Malaysian Green Technology and Climate Change Corporation (MGTC)

Mohamad Hafiz Hossen is an Executive in the Incentives Department at the Malaysian Green Technology and Climate Change Corporation (MGTC), a position he has held since September 2021. He holds a Bachelor of Technology (B.Tech) in Industrial Technology from the School of Industrial Technology, Universiti Sains Malaysia (USM), Penang. He began his career in 2014 with a green building consultancy firm in Malaysia, where he served as a Green Building Consultant until 2021. In this role, he worked closely with clients, architects, and project teams to facilitate the achievement of Green Building certifications for various development projects. His responsibilities included managing submissions for Design Assessment and Completion & Verification Assessment throughout the entire construction period of green building developments.

After seven years of experience in green building consultancy, he joined MGTC in September 2021 under the Green Standards and Verification Centre Division, which was later restructured and renamed the Financing, Incentives & Investment Division. He is currently responsible for the implementation and administration of the Green Technology Tax Incentive under the purview of MGTC.

Presentation Speaker 4

Angeline Seah

Deputy Executive Director, UN Global Compact Network Malaysia, Brunei & Cambodia (UNGCMBC)

Angeline Seah is the Deputy Executive Director of UN Global Compact Network Malaysia, Brunei & Cambodia (UNGCMBC), where she leads the organisation's Ecosystems and Digital & AI functions. She oversees RANTAiNEXT, UNGCMBC's integrated sustainable supply chain ecosystem designed to help organisations make ESG measurable, improvable and actionable across their value chains.

Through its solutions, RANTAiNEXT has engaged over 25 organisations and 5,000+ suppliers across Malaysia, giving Angeline firsthand insight into the practical barriers and enablers of ESG adoption at both the corporate and SME level. Her work sits at the intersection of ESG strategy, digital innovation and supply chain sustainability, with a particular focus on helping businesses of all sizes translate regulatory expectations and corporate ESG commitments into practical, on-the-ground action.

Presentation Speaker 5

Mr. Roland Wong

Sustainability Technologist, MY CO2 Sdn Bhd

Roland Wong is a Sustainability Technologist at MyCO2 Sdn Bhd and serves as the Executive Director of Prismatic Technologies Sdn Bhd, where he acts as a technology provider for climate change management. Within the MyCO2 / LMS Compliance Ltd group, he specializes as a Conformity Assessment and Sustainability Compliance Technologist, leveraging the group's accredited Testing, Inspection, Certification, and Assurance (TICA) and ESG services. His leadership extends to several industry bodies, including his role as Corporate Lead for the Malaysia Association of Product and Services Certification, where he moderates between government and industry, and as a Founding Member of the Malaysia Association of Public Advocacy of Nature, an NGO representing Asian MSMEs and SMEs.

In addition to his professional consultancy, Roland contributes to regional and national standards as an ESG Panel Committee Member for the Penang Chinese Chamber of Commerce and as a committee member for SIRIM Berhad's Panel of National Supply Chain Traceability Standard. In the latter role, he provides critical field knowledge regarding the technological and compliance components of supply chain traceability. Furthermore, he is the patent holder of the Slope Monitoring Coupler, a role in which he ensured the technology met global compliance criteria and achieved market acceptance.

Session 1: Panelist No. 3

Pn Sabihah Binti Saleh

Director of Standards and Certification

Roles & Responsibilities:

Puan Sabihah is currently the Director of Green Growth Division at Malaysian Green Technology and Climate Change Corporations (MGTC), an agency under the purview of Ministry of Natural Resources and Environmental Sustainability (NRES). She is overseeing the Sustainable Consumption and Production programme under MyHIJAU framework as well as managing the assessment of Green Investment Tax Allowance (GITA) and Green Technology Financing Scheme (GTFS) for the growth of green industry in Malaysia. Her team also managing capacity building programmes in the area of Green Technology and Sustainability that includes courses on Green Technology & Practices, Carbon literacy, Green Energy and Green Mobility. She is also overseeing the growth of Green Jobs programmes through Green Job Portal and events; and successfully concluded the development of Malaysia's Green Jobs Guideline in January 2025.

- MBA in International Business UK
- BSc in Statistics – USA

Experience:

Puan Sabihah has close to 20 years of experience working locally and overseas in Corporate Strategy, Performance Management, Project Management, Business Excellence, Quality Assurance and Manpower Planning. Besides Green Technology industry, her background covers extensively in various industries such as Telecommunications, Business Process Outsourcing and Education. She holds BSc in Statistics and MBA in International Business.

Session 1: Panelist No. 4

Edey Suresh

Director at Large UN Global Compact Network Malaysia & Brunei (UNGCMYB)

Edey Suresh is an enterprise sustainability strategist and seasoned practitioner with experience advising organisations across sectors on integrating sustainability into core business strategy, governance, and operations.

He serves as a Board Director-at-Large of the UN Global Compact Network Malaysia & Brunei (UNGCMYB), the official local network of the United Nations Global Compact. Edey also oversees sustainability and ESG curriculum design under the UNGCMYB Academy and serves on Boards of Studies for partner universities, contributing to academic-industry alignment.

In addition, Edey is the Chairperson of the Social Hero Foundation, an umbrella organisation uniting over 110 NGOs and NGLs to advance environmental and social impact initiatives. He received his early education at English College, Johor Bahru, holds an Executive Certificate in Sustainable Business Strategy from Harvard Business School, and a Master of Business Administration (MBA).

Session 2: Panelist No. 1

Mr. Lim Kim Seng

Senior Executive Vice President & CFO, Vitrox Technologies Sdn Bhd

Mr. Lim Kim Seng is the Senior Executive Vice President and Chief Financial Officer of ViTrox Corporation Berhad. A Chartered Accountant with the Malaysian Institute of Accountants and a graduate of Universiti Malaya, Mr. Lim possesses over 30 years of experience in senior leadership roles at global technology firms.

Mr. Lim is the key driver of the Group's ESG and sustainability initiatives. As a core member of the Environmental, Social, and Governance (ESG) Steering Committee, he is instrumental in aligning ViTrox's financial strategies with long-term decarbonization and social responsibility goals. His commitment to high-integrity corporate governance is further reflected in his role as Chairman of the Anti-Bribery Compliance Committee and his active participation in the Risk Management Committee. By bridging fiscal discipline with sustainable innovation, ViTrox remains at the forefront of the semiconductor industry's transition toward a greener and more transparent future.

Session 2: Panelist No. 2

Dr. Matin Ng

Deputy CEO / Board Member, UWC Berhad, Vice Chairman of Penang Skill and Sevelopment (PSDC)

Dr. Matin Ng Chin Liang serves as an Alternate Director to Dato' Seri Ng Chai Eng and Deputy Group Chief Executive Officer, with a notable educational background marked by a BA (First Class Honours) in Accounting and Finance and an MSc (Distinction) in Accounting and Finance, both from the University of Exeter, UK. His commitment to furthering his knowledge in the business field is evident from his Doctor of Business Administration degree from Wawasan Open University. Adding to his professional stature, Dr. Ng is a member of the Association of Chartered Certified Accountants and the Malaysian Institute of Accountants, reflecting his adherence to the highest standards of the accounting profession.

Since his initial appointment to the board on 15 November 2019, Dr. Ng has garnered diverse experience in the finance sector, starting his career as an Audit Associate at Deloitte PLT in Penang. His subsequent roles as Assistant Finance Manager at UWC Holdings Sdn. Bhd. and Head of Corporate Affairs and Communications at UWC Berhad showcase his growth and versatility in the corporate world. His role progression underscores a broad understanding of financial and corporate communication, essential for his leadership roles.

Beyond his corporate responsibilities, Dr. Ng actively contributes to the community and industry through various leadership positions. He serves as Chairman of the Youth Club at the Federation Malaysia Manufacturer, Penang Branch, Vice Chairman of the Penang Skill and Development Centre, and holds membership in several committees and advisory boards focusing on education and industry collaboration. His recent resignation as an Alternate Director of UMedic Group Berhad on 6 March 2023, and ongoing directorships in several private companies underline his significant influence and dedication to fostering growth and innovation in the industry.

Session 2: Panelist No. 4

Mr. Yoon Tien Ming

Director of Strategy and Sustainability of Solarvest Holdings Berhad

Yoon is currently Director of Strategy & Sustainability at Solarvest Holdings Berhad, where he spearheads four core pillars: Transformation, Innovation, Portfolio Management and Sustainability.

Yoon has been part of Solarvest for 8 years, building a career that spans strategy, innovation and business leadership. Prior to his current role, he served for 3 years as the Head of Group CEO Office and Sustainability, supporting and representing the Group CEO in the group's overall business management across 8 countries and 10 business verticals.

Earlier in his career at Solarvest, Yoon held roles in Innovation & Venture, as well as Design & Development Engineering — a trajectory that reflects his breadth of experience across the business, from engineering fundamentals to strategic leadership.

Moderator

Dr. Louis Ooi

CEO of LMS COMPLIANCE LTD, MD of MY CO2 Group Sdn Bhd, Adjunct Professor, INTI International University

Dr Louis Ooi serves as the CEO of LMS COMPLIANCE LTD, a Singapore Stock Exchange-listed entity, and is the Managing Director of its wholly owned subsidiary, MY CO2 Group Sdn Bhd. Under his leadership, the organisation achieved significant recognition, securing three Enterprise 50 awards in 2013, 2016, and 2019, including a prestigious top 10 ranking. These honours are jointly organised by SMECorp and Deloitte.

With a versatile career spanning 32 years, Dr Louis has demonstrated exceptional adaptability across multiple sectors. His professional history includes 5 years in property development and management, 9 years in Information Technology and Education, and 18 years dedicated to entrepreneurship. As a corporate leader and trainer, he leverages real-world examples and global insights to provide practical takeaways for diverse audiences.

Dr Louis possesses a distinguished academic background, holding a Postgraduate Diploma in Marketing from the Chartered Institute of Marketing (UK), an MBA from the University of Portsmouth (UK), and a DBA from Universiti Sains Malaysia (USM). In 2022, he was awarded the USM gold medal for his research on Malaysian capital structure and culture, exploring the intersections of ethnicity, religion, and corporate governance.

In addition to his business ventures, Dr Louis is a registered hygiene technician and an expert in Scheduled Waste Management. He served as President of the Persatuan Makmal Akreditasi Malaysia (PMAM) from 2020 to 2026 and contributed to the National Accreditation Council and the National Negotiating Committee on Plastic Pollution. He also chairs a key working group for the National Trade Blueprint 2021-2025 and was recently named an Adjunct Professor at INTI International University.

His commitment to lifelong learning and mentorship has focused on themes such as organisational excellence, ESG, climate change, and digital transformation since 2015. Dedicated to talent development and global growth, Dr Louis has engaged more than 400 senior executives across Malaysia, China, and Indonesia, sharing his extensive entrepreneurial expertise.
